

Elizabeth Rubio – Royal Air Force Charitable Trust Scholarship

I started out my flying journey by joining air cadets 3 years ago, after discovering that I would like to be a commercial pilot in the future. I received the opportunity to fly in a glider in 2022 and an Air Experience Flight in a Grob Tutor in late 2023 within the air cadets. I believe that these flights led me to pursue flying scholarships, and so I applied this year, and received a gliding scholarship for this summer. My course was in Derby and Lancs Gliding Club where I flew in a Puchacz and had the chance to fly everyday. I had a great time and learnt so much in that short time. It has been amazing opportunity for me and has made me even more determined to follow my dreams to become a pilot.
